

Bouldering mats

MODULAR RANGE

OUR MODULAR BOULDERING MAT OFFERING

At EP, we also manufacture safety mats for your project. Safety is essential in climbing practice, and we ensure our mats are both safe and comfortable. The Modular range mats are custom-cut to fit your wall with precision. By default, our mats are covered with a durable PVC cover; a carpet finish is available as an option for a more aesthetic and comfortable result. We bring our expertise to design, produce, and maintain your safety surfaces.

Manufactured and assembled in France

Custom made

Compliant with NF EN12572-2 2017 standards

Covers and carpet CFL S1 (M2) fire rated

MAINTENANCE & SPARE PARTS

Spare parts are available, and EP teams can intervene to repair your matting surfaces.

- Individual components like carpet, tarps, and connection strips are available separately.
- Annual inspection included, with wall safety check in compliance with NF EN12572-2 2017.

CUSTOMISATION OPTIONS

Handles: Allow easy movement of mats to free up space for other activities.

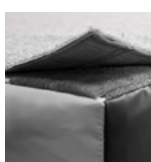

Logo: Customize the mat sides with your brand's colors and logo.

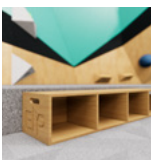

Protective Cover (Over-Tarp): An extra protective layer, particularly useful for outdoor installations.

High-Density Foam: Installed around the mat perimeter to improve durability and prevent sagging.

Carpet: For a premium look and added comfort.

Accessories: Benches, baseboard, and anchors to secure or enhance your mats.
