EP USA, Inc.
Climbing Wall Drafter
Job Description

Posting Date: 8.1.23

Job Title: Climbing Wall Drafter
Department: Design
Reports To: Drafting Manager

COMPANY
EP USA is a team of engaged and motivated individuals who collaboratively design, manufacture and install the best climbing walls and structures on the market. We support a passion for climbing, outdoors, and business. We pride ourselves on being a great place to work where people have opportunities to grow and contribute to our company culture of collaboration, respect, and social responsibility. We are inspired to be the best we can be and treat our clients and each other with integrity.

The lifestyle choices that draw people to EP USA are core to our culture: we Climb/Ride/Parent/Run/Paddle/Surf, so our work life balance is important, the membership to the Bend Rock Gym is free (if you’re here in Bend), and Pro Deal accounts allow you to get the kit you need.

JOB OVERVIEW
A Drafter in the Design Department will be responsible for design and development of 3D models using 3D CAD software (Sketchup Pro). The Drafter will work closely with Project and Drafting Managers, the Production Department, and Sales teams to apply standardized development processes and ensure content meets climbing industry and company standards. Other duties as assigned.

This is a full time 40hr/wk hybrid position in Bend, OR
This position is available to start immediately.

ESSENTIAL DUTIES AND RESPONSIBILITIES include the following. Other duties may be assigned.

- Design and develop 3D models using 3D CAD software (Sketchup Pro, AutoCAD).
- Produce building models in Sketchup with information from various sources (Plans, 3D Imports, site dimensions)
- Complete plan sets for Construction Documents, Fabrication Documents and Installation Documents (Sketchup Layout, Acad).
- Complete a Bill of Materials for projects (Microsoft Excel).
- Generate Complete Technical Drawing Packages and deliver to Production Dept. according to mutually agreed upon deadlines.
REQUIREMENTS
• Associate's degree (A.A.) or equivalent from two-year college or technical school is preferred; or two to four years related experience and/or training; or equivalent combination of education and experience.
• Retain practical and theoretical knowledge about design.
• Ability to read and understand technical manuals, drawings and associated literature.
• Must be proficient with 3D CAD software, (Sketchup, AutoCad or equivalent)
• Accustomed to MS Office and MS Project Suite(s).
• Must be creative, resourceful, and able to work under deadlines.
• Must be able to multi-task, establish priorities, communicate well with Team members.
• Architectural Structural Steel and building construction knowledge a plus.
• Ability to communicate technical instructional information effectively, clearly and concisely.
• Aptitude to multi-task and work independently with minimal direction/supervision
• Must have an eye for detail and all project related work should reflect appropriate level of accuracy and attention to detail.

OPPORTUNITIES
• Become part of a world leading climbing wall manufacturing company
• Join an environment that is result–oriented and supports innovation
• Work with a team of highly - qualified professionals and innovative processes in the field of design, manufacture, and installation /services of the best climbing walls in the business.

SALARY & BENEFITS
• Starting salary: $20-23 / hour (depending on experience), additional $6/hour in benefits after completion of 90 days employment.
• Available benefits include: health & dental insurance, disability insurance, PTO, 401K, membership at local climbing gyms, professional equipment discounts and other items, subject to change over time.
