

EP[®]

CLIMBING

Portfolio

As a sport, climbing is steadily growing in popularity, due to its sense of adventure and in particular, its appearance at the Olympic Games Tokyo 2020. Not only does climbing offer an unparalleled mental and physical workout, it also helps to build confidence.

Since 1985, we have approached all of our projects with the same sense of passion, bringing climbing and its core values to everyone. Over the years, many climbing gyms, competition organisers, schools, and public organisations have placed their trust in us. We have grown together and have remained local partners for both our clients and the community.

EP Climbing is passionate about the climbing community and the success of all climbing projects. Transparency, honesty, and strong principles are the groundwork for all EP collaborations to guarantee reliable, confident, and long-term relationships with our clients.

Each and every project is unique and we strongly believe that building facilities around the world contributes to sharing sport climbing's values.

We are excited to present to you a selection of recently completed projects in this portfolio and we hope you enjoy learning more about what we do.

The EP Team.

CLIMBING GYMS

EP Climbing builds custom climbing gyms to turn your vision into a reality.

EP stands out as an industry leader for more than our knowledge and expertise. We work with our clients through the entire process from design to manufacturing to installation. Collaboration is essential to create a climbing facility that matches your vision and meets your community's needs.

EP climbing gyms are dedicated to climbing in all forms: lead, bouldering and speed, and our walls are designed for all climbers -- children to adults, beginners to experts.

In partnering in EP, we'll bring the highest quality craftsmanship and collaboration, so there will be no surprises, and we strive to complete projects on time.

Klimbzaal Arsenaal

Belgium

Klimzaal Arsenaal is a modern climbing center offering over 1,100 m² of space for all ages, including dedicated kids, adults, and Clip 'n Climb zones. Featuring an IFSC-approved TITAN boulder, the gym combines fun, performance, and innovation — a perfect example of EP Climbing's inclusive design approach.

- **WALL TYPE**

Bouldering, adjustable training board, Clip 'n Climb

GYMNASIUMS & SCHOOLS

EP Climbing has been passionate about the climbing community and the success of all climbing projects since 1985. Transparency, honesty and strong principles underpin all EP collaborations to ensure reliable, trusting and long-term relationships with all our customers.

Over the last 35 years, more than 7,300 schools, colleges and universities have entrusted us with the construction of their climbing walls.

We work with our clients to design, produce, and install a bespoke climbing wall that meets the needs of students of all ages.

Warwick University
United Kingdom

Originally built in 2019, the climbing wall at Warwick's Sports & Wellness Hub has been upgraded in 2025 in partnership with EP Climbing. The refurbishment replaces unused sections with Mozaik panels and refreshes the wall to be more accessible and versatile for climbers of all abilities.

- **WALL TYPE**

COMPETITION WALLS

EP Climbing is proud to be the official supplier to the most prestigious climbing competitions around the world!

EP Climbing is the world leader in manufacturing high quality climbing walls for all levels of competition, including regional, national, and international events. Our walls cater to all disciplines of climbing including lead climbing, speed climbing, bouldering, and paraclimbing.

Our climbing walls are designed to meet the highest standards of safety and durability, ensuring that climbers can push their limits without fear of injury. With a commitment to quality and customer satisfaction, EP Climbing is the preferred choice of climbing wall manufacturer for competitions around the world.

EP Climbing has always been heavily involved in the development of competition climbing and has been the official supplier of climbing walls for the **International Federation of Sport Climbing (IFSC)** since 2006, as well as a partner to many national federations, such as the FFME, USA Climbing, and many others.

Paris Olympic Games

2024

This was a historic moment for climbing at the iconic Le Bourget Climbing Venue, celebrated from August 5th to 10th.

The event drew thousands of spectators and millions of viewers from all around the world.

The TITAN boulder, designed by EP Climbing in collaboration with the IFSC, was featured in this competition.

OUTDOOR CLIMBING WALLS

Climbing walls and boulders in parks and playgrounds make climbing accessible to everyone, regardless of their age or skill level.

EP Climbing's playground walls are specially adapted for outdoor use and harsh weather conditions. Each wall is manufactured using shock-resistant resin and fibreglass panels, featuring freeform cracks that replicate real rock. They are available in a range of natural rock shades, with a 2.5 metre landing area made from shock-absorbent pea gravel.

From indoor bouldering and roped climbing walls, to towers which replicate natural rock or building facades, EP Climbing team work with you to design, produce, and install a custom climbing wall for your military base.

The complete solution

• HOLDS & VOLUMES

We create new holds and volumes each year in collaboration with the world's best shapers, athletes, and route setters, to offer a wide range of products.

EP is proud to be an IFSC authorised producer of holds, macros, and volumes.

• MATS

Ensure the safety of your climbers with premium quality EP mats:

- Manufactured and assembled in France
- Custom made
- Compliant with standards EN 12572-2 and NF P90-311
- Cover and carpet fire classification CFL S1 (M2)

• ROUTE SETTING

EP Climbing's team of routesetters can set your routes and train your routesetting team to optimise the appeal of your climbing wall.

• MAINTENANCE

We recommend an annual inspection: of your climbing wall to guarantee that it is compliant with safety standards.
