

CLIMBING WALLS FOR SCHOOLS

Climbing walls designed to
inspire movement, build
confidence, and support
learning for students of all ages.

BENEFITS OF CLIMBING IN SCHOOLS

Physical Benefits

Develops Total Body Strength

Climbers engage every major muscle group to build balanced, functional strength.

Enhances Balance & Coordination

Improves body control, spatial awareness, and motor development.

Promotes Flexibility & Mobility

Encourages dynamic movement and a healthy range of motion.

Builds Endurance

Increases muscular and cardiovascular stamina through continuous movement.

Strengthens Bones & Grip

Weight-bearing activity supports healthy bone development and lasting functional strength.

Emotional Benefits

Reduces Stress & Anxiety

Physical activity and focused movement help promote a sense of calm and well-being.

Boosts Mood

Active movement releases endorphins that support a positive mindset.

Builds Self Confidence

Achieving goals and celebrating progress encourages lasting self-belief.

Encourages Teamwork & Connection

Shared challenges foster collaboration, communication, and a sense of belonging.

Develops a Growth Mindset

Visible progress encourages students to stay engaged and strive for new goals.

Cognitive Benefits

Encourages Critical Thinking

Every route challenges students to analyze, plan, and solve problems.

Strengthens Focus & Attention

Climbing promotes concentration and sustained mental engagement.

Builds Decision Making Skills

Real-time adjustments develop adaptability and sound judgement.

Supports Memory & Learning

Repeating movement patterns reinforces memory and skill development.

Fosters Confidence & Resilience

Reaching new goals builds perseverance, self-belief, and a willingness to embrace challenges.

Inclusive & Adaptive Play

Designed for Every Ability

Creates climbing experiences that welcome students of all physical, cognitive, and developmental abilities.

Supports Adaptive Climbing

Integrates specialized wall angles, adaptive equipment, and support systems to meet a wide range of individual needs.

Expands Participation

Inclusive design removes barriers, allowing more students to actively engage in physical education, recreation, and therapy.

Promotes Independence

Accessible features encourages students to build confidence, develop skills, and climb at their own pace.

Creates a Sense of Belonging

Shared climbing experiences foster inclusion, teamwork, and meaningful connections among students of all abilities.

WHAT TYPE OF CLIMBING WALL IS RIGHT FOR YOU?

EP Climbing helps schools create engaging climbing environments designed around their unique needs. We'll work with you to determine the best solution for your space and program.

Rope Climbing Walls

Roped climbing allows students to climb higher with the security of a rope, building confidence while developing strength and technique. Requiring a minimum wall height of 6–10 meters, it's an ideal solution for multi-sport spaces and can be equipped with auto belays for independent climbing.

Bouldering Walls

Bouldering challenges climbers to solve short routes using balance, strength, and technique. Requiring no ropes or harnesses, walls up to 4.5 meters high are an ideal solution for spaces with limited ceiling height.

Outdoor Boulders

Outdoor boulders bring a natural climbing experience to school playgrounds and outdoor spaces. Offering 360-degree climbing at a low height, they're built with durable Mozaik XP composite panels to withstand the elements.

Traverse Walls

Traverse climbing develops balance, coordination, and confidence by moving horizontally just a few feet above the ground. Requiring minimal space, traverse walls can be freestanding or installed against an existing wall, making them ideal for younger climbers.

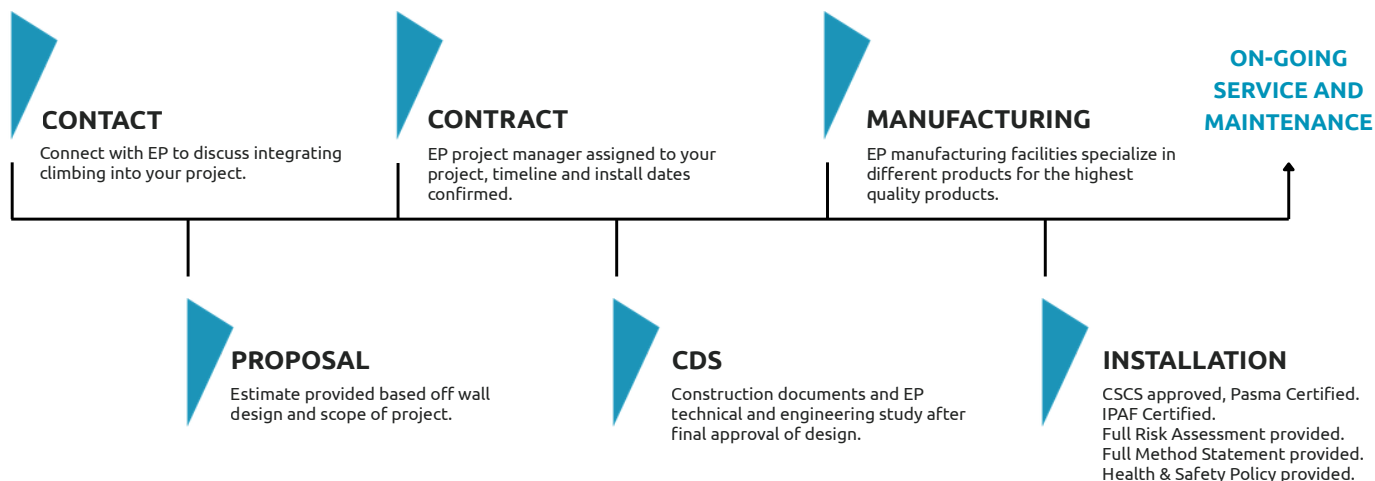

Prima Mozaik Walls

Prima Walls are standardized climbing walls designed specifically for schools, offering a fast, cost-effective way to introduce climbing. Easy to install and ideal for beginners, they provide a high-quality solution without the complexity of a fully custom project.

OUR PROCESS

From the moment your order is placed, EP Climbing manages every stage of your project through installation and completion. The project timeline below outlines each step, and our Sales and Project Management teams are always available to answer your questions.

WHY CHOOSE EP?

Since 1985, EP Climbing (Entre-Prises) has helped shape the climbing wall industry, driving innovation and advancing the growth of climbing as a sport around the world. Guided by a passion for climbing, our mission is to bring the sport and its values to people of all ages and abilities through high-quality climbing solutions.

EP Climbing proudly supplied the competition walls for the Tokyo 2020 and Paris 2024 Olympic Games. We are also the Official Wall Supplier and an Official Sport Equipment Supplier for holds, macros, and volumes to World Climbing (formerly the International Federation of Sport Climbing), supporting the world's highest level of competition.

Beyond elite events, we design and manufacture climbing walls for climbing gyms, schools, universities, recreation centers, military facilities, and a wide range of commercial and community spaces.

As part of the ABEO Group, a global leader in sports and leisure equipment, EP Climbing combines decades of expertise, innovation, and craftsmanship to deliver climbing solutions trusted by customers around the world.

WHAT ELSE EP CAN OFFER YOU:

Enhance your climbing space with EP Climbing's complete range of products and services. From climbing holds and auto belays to equipment and maintenance, we provide everything needed for a safe, high-quality climbing experience.

Annual Inspections

EP Climbing provides comprehensive assessments of wall systems, supporting structures, anchors, surfaces, PPE, access areas and documentation. Each inspection includes a detailed report with practical recommendations.

We also offer multi-year service agreements that reduce annual paperwork, keep certifications up to date and prioritize your facility when scheduling service.

Equipment

EP Climbing can supply all the essential equipment needed to operate your climbing wall, including ropes, harnesses, climbing shoes and helmets.

Additional equipment is available on request. Please contact our sales team for pricing and further information.

Maintenance Services

Proactive maintenance helps extend the life of your climbing wall and prevents minor concerns from becoming larger, more costly issues.

EP Climbing provides routine maintenance, hardware servicing, surface care, T nut and backer plate repairs and other services tailored to your facility.

Accessories

From climbing holds and volumes to premium safety mats, EP Climbing provides everything you need to complete your climbing space.

As a World Climbing Silver Level Holds Supplier, we offer exceptional products designed to deliver outstanding performance, reliability and durability.

EP VALUES

For decades, EP Climbing has led the climbing wall industry by designing, manufacturing, and installing innovative climbing walls worldwide.

From concept to completion, EP Climbing takes care of every detail. We're passionate about creating climbing experiences that inspire people of all ages and abilities.

PEOPLE

Since 1985, the EP team has been fully dedicated to the climbing community and committed to the success of every project, driven by a passion for climbing.

INTEGRITY

Integrity guides everything we do. Through transparency, honesty, and strong principles, we build trusted relationships and long-term partnerships that last long after the build.

RELIABILITY

For EP Climbing, quality means constantly striving to provide the best field of play for climbers and their development, and for our community and partners.

Our team carefully develops each project to simplify installation, streamline maintenance, enhance safety, and maximize cost efficiency.
